COMPANY PROFILE

2026

WHO WE ARE

Australia's trusted security systems integrator for high-rise residential and commercial properties. SEC2 Solutions designs, installs and maintains integrated security systems across access control, video surveillance, intercoms and building automation.

IN THIS DOCUMENT

Servicing Melbourne and Sydney, our licensed technicians deliver tailored solutions from initial design through to commissioning and ongoing support.

This document provides an overview of who we are, the industries we service, and the full range of security solutions we deliver to our clients.

Who We Are

Who We **Are**

SEC2 Solutions is an Australian owned and operated security systems integrator servicing Melbourne and Sydney. We specialise in access control, video surveillance, intercoms and building security integration for high rise residential and commercial properties.

Our licensed technicians work directly with building managers, strata managers, owners corporations and property developers delivering tailored security solutions from initial design through to installation, commissioning and ongoing maintenance.

What We Do

SEC2 Solutions designs, installs, and maintains integrated security across multiple building systems. With over 35 years of industry experience, we specialise in high-rise residential and commercial properties delivering seamless upgrades and installations you can rely on.

SECURITY NETWORK INTEGRATED INTO MULTIPLE SYSTEMS

Our team has procured systems for projects such as:

- Australia 108
- West Side Place
- The Melburnian
- Evermore Apartments
- Mason Square
- Yve Apartments
- Capital Grand
- Sapphire By The Gardens

BUSINESS VERTICALS

Project Descriptions

HIGHER DENSITY RESIDENTIAL

SEC2 provides video intercom, access control and CCTV for apartment towers and multi-tower residential complexes of all sizes.

COMMERCIAL

We deliver access control, CCTV and security networking for A-Grade office buildings, mixed-use developments and major tenant fit outs.

STRATA & OWNERS CORPORATIONS

SEC2 partners with strata managers and owners corporations to upgrade and maintain building security with full credential management and real-time access visibility.

CREDENTIAL MANAGEMENT

We manage the full lifecycle of building credentials across fobs, cards and digital keys from issuance and tracking to instant revocation and audit reporting.

HOW WE DO IT

SEC2 Solutions partners with the world's leading security technology brands every product installed and commissioned by our licensed technicians.
